The Rotary, Lions and Kiwanis Service Clubs will have a joint meeting and serve as hosts for the occasion.

Plans for "Clean-Up Day" on May 12 are still going along under the direction of J. C. Andrews.

Highlights of the East Texas Chamber of Commerce convention held the past weekend in Tyler, were given by A. H. Eubanks. McKinney was represented by 16 members, and H. Truett Smith, of Collin County, was elected president of the organization.

Carl Cox, general chairman for for Cabell's Day, announced plans for that occasion when some 150 industrialists and business men from over Texas will visit in McKinney. Earl Cabell of Cabell's, Inc., will be host for the luncheon at the McKinney Country Club, after which a tour will be made of Cabell's newly remodeled plant here. The CC is cooperating in arranging for the day's meeting and welcoming the visiting business people to McKinney.

County Agent Virgil Dahlberg stated Dairy Day will be held again this year, on May 7, at the Fair Grounds, outlining arrangements for that event.

The newly organized Dairy Herd Improvement Association was reported by W. T. Dungan of the Agriculture Committee, stating the advantage to dairymen to sign up for the testing program offered by the association.

Contacts which have been made with prospects for locating industrial plants here, were reported by R. E. Neal, heading the Industrial Committee.

Some $40,000 has been pledged to the Industrial Foundation to date, according to J. M. Whisenant, chairman, and plans are in the final stage for chartering the corporation.

Miss Madeline Moses of the Membership Committee stated 37 new members had been secured this fiscal year, ten of which were enrolled within the last month. The total membership to date is 368, reaching for a goal of 500 this year.

Newcomers to McKinney, merchants and business people, expanding their businesses, or changing positions, have been called on this month by Dr. Charles McKissack, Ramsey Harris and other members of the public relations committee. New residents were given a welcome to the city, and offered the services of the Chamber of Commerce.

Manager Simpson reported members from the local CC, as well as from other towns in Northeast Texas, met with the Railroad Commission recently in the interest of restoring bus service through East Texas from McKinney. The group protested extension of franchise to the Mooney Bus Company unless they will restore the bus service immediately. Manager Simpson stated an answer had not been received as to the action of the RR Commission.

The quarterly membership meeting, set for May 20, will be held in the Community Room of the Collin County National Bank at 7:30 p.m. instead of the usual afternoon meeting. Everyone who is a member of the CC, and the general public, are cordially invited to that meeting.

THE HOME TOWNERS
THE GREEN LIGHTS ARE ON IN McKINNEY AND COLLIN COUNTY

▶ WITH THE excellent financial condition the City of McKinney as appeared in The Daily Courier-Gazette seems that they should do something about the useless coliseum. With a new hospital, a new school and with streets to come—why not let's go first class in Big McK—let's renovate the old coliseum into a useful auditorium. It will bring folks to town and that's what we need more of.

▼ ▼ ▼

▶ SEE WHERE down at Cleburne they voted a bond issue for an airport. Well congratulations to the folks in that fine progressive city.

▼ ▼ ▼

▶ ANOTHER HONOR was brought to Collin County this past week in Tyler when Truett Smith, Wylie Banker and leader, was named President of The East Texas Chamber of Commerce. Truett, as he is known to his many friends throughout East Texas, is one of finest Christian men that Your Home Towners have had the pleasure of knowing and associating with. He is the kind of a man that you are proud to say: "I know Truett Smith, he's a friend of mine." The East Texas Chamber of Commerce has come a long way since its organization and is a vital force in the affairs of East Texas and the nation. We are happy that Collin County is a part of this great organization and its business interest should support its efforts. And to Truett Smith, when we can assist you in any manner please command us. Let's work together and go forward together and unite our every efforts for the building of a better Collin County and East Texas.

Eight Towns Plan Central Sewage Plant

A meeting was held in Garland Friday night, attended by representatives from eight towns in the Dallas-Garland area, to study a share-cost plan for a survey of a central sewage disposal system. The plan was suggested by the Trinity River Authority for the East Fork of the Trinity.

Dr. T. D. Kunkler, mayor pro tem of Garland, presided. Spokesmen represented Dallas, Garland, Sunnyvale, Richardson, Wylie, Mesquite, Plano and Rowlett.

The Fort Worth engineering firm of Freeze & Nichols has proposed to make the sewage district study at a cost of $10,200.

The survey would determine the feasibility of building a central sewage disposal plant to serve the cities in the Trinity River's East Fork drainage area.

Kunkler said each of the municipalities would name a committee member and that the committee would meet within two weeks to pro-rate a share of the survey cost to each municipality.

The engineers said that the survey would cover both the immediate and long-range needs of the municipalities, and suggested presentations for three alternate plans: (1) A plan which would serve all of the eight municipalities; (2) A plan for Garland, Richardson, Wylie and Rowlett; (3) A plan for Garland and Richardson combined.

Kenneth Branch, son of Mr. and Mrs. Garland Branch, has been confined to his home with illness. He was slightly improved Wednesday.

In a long distance telephone call to the Daily Courier-Gazette and Weekly Democrat-Gazette office Wednesday morning from Speaker Sam Rayburn's office in Washington, D.C., announcement was made that construction of the McKinney post office is due to begin immediately.

The contract for $300,900 was awarded to Marlong-Stafford Construction Company of Sherman, low bidder of seven submitted.

The new federal building will be built under the lease purchase program, containing two stories, air-conditioning and about 20,000 square feet of space. It is due for completion in May, 1959.

Due to expiration of the lease-purchase law recently, it had been announced that federal construction would not be made until a five-cent postage rate had been given Postmaster General Summerfield. However, according to reports from Speaker Rayburn's office, the local project is not affected, and the building is due to get started right away.

Judge Sewell To Speak Here 8 P. M. Saturday

The meeting, which is open to the public, will be called to order promptly at 8:00 p.m., and the Judge will speak immediately.

Judge Sewell, blind, but a political leader of keen hearing and long memory, has been highly praised for his work as first Chairman of the Democratic Advisory Council, to which he was appointed by Speaker Sam Rayburn, to maintain the campaign for Adlai Stevenson in 1952, when the Shivers controlled State Democratic Executive Committee went over to Eisenhower. As a member of the Legislature, Judge Sewell was skillful in bringing about agreement among adversaries but it has been said that he never compromised basic principles to acompclish his objectives. Judge Sewell's keen insight regarding the political picture in Texas, and his devotion to good government, render him an interesting speaker.

MAKE YOUR OWN BELTS AND BUCKLES.

Your belt is an important accessory. If it is well made and the correct type for your figure proportions, it will add a professional touch to your costume.

A narrow belt tends to diminish the waistline, while a wide one tends to increase it. A belt of contrasting material tends to decrease the height of the figure and increase the waistline measurement.

For more information on belts and buckles pick up a copy of the bulletin "Make Your Own Belts and Buckles" from our office in McKinney.

PREVENT RATHER THAN CURE SOIL COMPACTION

Excessive use of heavy machinery in farming operations tends to pack certain types of soil into unproductive hardpans or to form hard layers of soil just below plow depth, says Jack Barton, extension soil and water conservation specialist. This condition cuts the soil's ability to absorb water at the surface as well as slows the permeation into the subsoil. Too, in some cases normal root development of planted crops is restricted.

Once soils become compacted, the hard layers must be broken by subsoiling, deep tillage or plant roots. But prevention is still the best way to deal with the problem.

He says machine operations should be delayed if the soil is wet. Damage is frequently done shortly after rainy spells when farmers become alarmed about the lateness of the season or vigorous growth or weds in cultivated crops. The soil's resistance to compaction can be increased by ading to its organic matter content through rotation with grass or pasture plants. Cover crops can be grown in off seasons and turned under as green manure before cultivated crops are planted.

Barton suggests developing a minimum tillage system for the farm. That is, tilling the soil as little as possible. This, he says, requires judgment on the part of the operator.

CHEMICAL TREATING PLANT SEED GOOD INSURANCE.

Planting high quality seed which have been treated protect them from soil-borne diseases is one of the best steps a farmer can take for getting his crop off to a good start, advises Lee Coffey, extension agronomist.

Farmers do not have to wait until the last minute to treat the seed, he points out. Storage is no problem as long as the seed is stored under dry conditions and recommended dosages are used. In fact, early treating is sometimes advisable because it helps avoid the last minute rush and gives the chemical ex tra time to work, he adds.

Farmers will have several approved chemicals to choose from when treating seed this year, says Coffey. The effectiveness of these chemicals is essentially the same and each wil do the job if they are used according to instructions.

Special care must be taken when treating legume seed so the chemical will not kill the inoculant. Chemical treatment should be done as possible after inoculation.

It is especially important to treat seed which is to be planted early. Treating helps protect the seed and seedling from seed—and soil-borne diseases that may attack when soil conditions are not favorable for immediate germination.

In general, points out Coffey, planting seed purchased through seed stores has already been treated. But to make sure, he advises checking the tag on the bag.

NEWS FROM THE BOARD OF SUPERVISORS —of— THE COLLIN CO. SOIL CONSERVATION DIST.

Collin Soil Conservation District operators who have land in the Soil Bank will seldom find a better opportunity for applying soil conservation practices. While the land is in the Soil Bank and out of crop production, the needed waterways can be established, summer soil improving legumes planted, the terraces constructed without reducing the income from the land.

Soil Conservation Service technicians serving the Collin District in the McKinney area have helped farmers locate and sod approximately 52 waterways so far this spring. Cooperators who would like to terrace their land this fall are sodding waterways between rains this spring. A few that are establishing waterways include Russell Wilson, J. D. Deur, J. D. Griffin, Robert Strong, Sam Chesney, Jr., Ernest Cross, Leon Hobson, R. L. Dalton, Carl Pratt, Mrs. Henry Barlow, Mrs. Veda Stacy, Jim Watkins, Tom Taylor, George Wiltse, Amos Littrell and Opal Littlefield. With our present moisture conditions, waterways will be sodded to Bermudagrass for possibly another month.

Land that is no longer profitable to grow cultivated crops due to erosion can still be established to a permanent grass. Grass furnishes a good cover to prevent erosion and at the same time furnishes grazing for livestock.

Cooperators sodding or seeding a considerable acreage to pasture this spring are: Morris Morgan of Firsco, Carl Pratt, East of McKinney, N. D. Ready, East of Melissa, Raymond Dalton, West of Rhea Mills, L. L. White, West of Mc-Kinney and W. B. Nicholson of Celina.

Clovers are being planted by approximately 1,500 farmers on 30,000 acres in the Collin District this year. Farmers here know that soil improving corps such as clover soil condition, reduces erosion and increases yields on corps that follow.

Chamber of Commerce . . .

CORNER

By PAT SIMPSON, Manager

The McKinney Chamber of Commerce sent a strong delegation to the East Texas Chamber of Commerce convention in Tyler, Texas. McKinney had a total of 16 delegates in attendance—more than any other town except Lufkin, Texas, which was making a bid for the convention for 1959. Attending from McKinney were: Mr. and Mrs. Choice McClure, Mr. and Mrs. Roland Boyd, Mr. and Mrs. Boyd Williams, F. D. Perkins, J. C. Andrews, Tom W. Perkins, Jr., Chas. A. Angel, C. Hansford Ray, A. H. Witherspoon, A. D. McGhee, A. H. Eubanks, Jr., Audie Turrentine and your Chamber manager.

The McKinney Chamber of Commerce sponsored C. Truett Smith of Wylie for president of the East Texas Chamber of Commerce. Mr. Smith was elected. He is a talented leader and tireless worker and will make a wonderful president. It is quite an honor to be chosen to a position such as this and it is an honor to Collin County to have one of our good citizens so recognized. The East Texas Chamber of Commerce takes in 71 counties in Texas and Caddo Parish in Louisiana and includes the cities of Houston, Dallas, Shreveport, Waco, Beaumont. The total area has a population of about 4,000,000. It is quite an honor and distinction to represent the only organization working for the many interests of this vast area.

Collin County is proud that we have leaders like Truett Smith who can step into a job like this, and one in whom we have utmost confidence of making an outstanding record. It is interesting to note that in the American system of Democracy we very often seek leadership from the rural areas or small towns.

There is nothing wrong with a large city . . we all try to make large cities out of all the small towns . . . but there is something about a small town that builds a sense of duty in people privileged to live and work in small towns that has a lasting effect on their lives. This sense of duty and willingness to serve is the backbone of the American way of life.

LETTERS FROM . . .

THE PEOPLE

MUST OFFICIALS BOW TO UNIONS?

The press says that five unions lost $10 million to gangsters. Newspapers and radio speakers say that AFL-CIO has enough friends in the committees of the two houses to defeat any bill to reform or mitigate said evils.

Will our 96 Senators and 435 Representates, who are paid fabulous salaries to protect the people, admit they can not do it? Four years ago the union boasted that it defeated two Texas congressmen because they did not vote like the union demanded.

Has the union become a Shakespeare's Jack Cade? (2nd part of King Henry VI, Act 4, Scene 7.)

Jack Cade: "Away with him and do with him as I commanded. The proudest peer in the realm shall not wear a head on his shoulders unless he pay me tribute."

By NORMAN SCOTT

The Paris Wildcats, defending district champs, blanked the McKinney Lions, 7-0, Tuesday afternoon at Paris in a district baseball opener.

◆ ◆ ◆

ERRORS COSTLY.

Hhe Wildcats, who scored five unearned runs due to some loose fielding by the Lions, counted twice in the bottom of the first, and that was all the Wildcats needed as Charlie Hamman kept the McKinney nine from crossing the plate although he was in trouble in three innings. Paris added two more in the third, and one in the fourth, fifth, and sixth.

◆ ◆ ◆

LIONS THREATEN.

The Lions threatened in the first inning on consecutive singles by second baseman Vic Petricka and first baseman Don Wharton but left-fielder Glendell Baker make a nice catch on catcher Jerry Hall's long smash near the left-field fence, and Don Jenkins lined into a double play to retire the side. They loaded the bases in the fourth and seventh but couldn't count.

◆ ◆ ◆

PARIS RAP 10 HITS.

Catcher Joe Stevens, with a double and two singles, in four first-baseman Jay Bowman, with two triples in four trips, and third baseman J. T. Hill, with a double and single in four, paced a 10-hit Wildcat attack against Tommy Lane, who worked for the first five innings, and Tommy Carnes, who hurled the final. North Texas Semi-Pro League Is Organized

Frank Davis, president of the North Texas Semi-Pro Baseball League, presided over the North Texas Semi-Pro Baseball meeting Sunday afternoon, April 6, held in Farmersville. Managers from six teams in the league were present as follows: Hubert Footch of the Pilot Point Pointers; Clarence E. Dugger of the McKinney Independents; Ervin Cook of the Rockwall Rockets, representing Jesse Young, manager, who was absent; Pete Herriage of the Bonham Southwest Pumpers; Nolan Abbott of the Greenville Indians, and Jim Lewis of the Farmersville Ramblers.

The league begins play April 27. Another meeting has ben called by President Davis to be held in the basement of the postoffice building at Farmersville on April 20. Final plans and a schedule will be made at that time. The meeting will convene at 2:30 p.m.

Two league games will be played each week during the season—Sunday afternoons at 2:30 o'clock and Friday nights at 8 o'clock. Thirty games will be set up. Entry fee is $25 per team, with 16 players and each team may have four high school players also, for a total of 20 on the roster.

The Ramblers will open their exhibition series Friday night, April 11 when the Greenville Indians invade Ramblers Stadium. On Sunday after, April 13, the Ramblers go to Pilot Point, winner of the tri-county championship last season with only two losses in 33 games.—Buren Parris, reporter.

Midget League Reports 145 Boys Registered

A total of 145 boys signed up for play in McKinney's Midget Baseball League this summer when registration for the 8-, 9- and 10-year-olds was held at the Community Recreation Center Saturday afternoon, according to C. D. Taylor, president of the Midget Leagues.

Pee Wee and Youth League age boys, 11 through 15 years of age, will register on Saturday afternoon, April 19, at the Center at 3 p.m. James Redden is president of the Pee Wees and James Wilcox heads the Youth League this year.

Saturday's registration included 36 boys who are 8 years of age, 52 9-year-olds, and 57 10-year-olds.

The absolute deadline for registering has been set by league officials for Saturday, April 26, at which time the books will be closed and teams selected. A deadline had to be set because of the increasing number of boys participating in the program and the necessity of determining well in advance of the start of the season the number of teams to be required.

Boys who are of Midget League age who did not register last Saturday but who want to play on one of the teams this summer may register at the McKinney Chamber of Commerce office on Virginia Street any time between now and April 26. After that time no registrations will be accepted. Parents may register for their boys in cases where it is not possible for the boys to go to the Chamber of Commerce.

Mrs. J. E. Woods of Temple was the week-end guest of her cousin, Mrs. C. C. Harris and family. She attended the Miss Kathi Harris' recital Saturday evening at the First Presbyterian Church.

M'Kinney Wins 2 To 1 In Pitchers' Duel

By NORMAN SCOTT

Tommy Carnes bested James Stansell in a pitching duel as the McKinney Lions edged the Mt. Pleasant Tigers, 2-1, Friday afternoon at Mt. Plesant.

Carnes, a freshman, struck out five and walked none in the duel with Stansell, who whiffed two Lions and walked only one. Carnes retired the last six batters in a row to preserve the victory.

◆ ◆ ◆

LIONS SCORE TWO.

The Lions took advantage of a throwing error in the top of a third for their two tallies. After one out, Don Wharton singled and Jerry Hall reached first on an error by the third-sacker. Don Jenkins singled to load the bases, and Jerry Miller hit sharply to the shortstop on an apparent double play situation but the secondbaseman, after taking the throw, forcing Jenkins, overthrew first to allow Wharton and Hall to scamper across the plate with what proved to be the difference. Their only other scoring threat of the afternoon came in the opening inning when they loaded the bases with one out but couldn't scratch.

◆ ◆ ◆

TIGERS TALLY.

The Tigers threatened in the third when firstbaseman Clifton Laird led off with a double, and after catcher Newsome popped to second, shortstop Dean singled to center but a great throw by Jerry Miller caught Laird at the plate. They finally managed to score in the fifth, when after one out, Laird again connected for a double, Newsome flied to right, was hit by a pitched ball, and secondbaseman Whitecotton doubled scoring Laird with Dean pulling up at third. Here, another great play, this one a nice catch by Robert Joplin near the left field fence on thirdbaseman McClinton's smash, pulled Carnes out of a tight jam. The youngerster then bore down and retired the final six Tigers.

Jenkins, with two singles in three trips, and Wharton, with two one-basers in four, paced the Lions while Laird and Stansell, each with two for three, led the Tigers at the plate.

◆ ◆ ◆

EIGHTH WIN.

The win was the Lions' eighth in ten games for the season, and evened up their district slate, at 1-1, after dropping the opener to Paris Tuesday. Yesterday's game was scheduled to be played in McKinney but Tuesday night's rains left the infield in bad shape and Coach Talbot transferred the tilt to the home of the Tigers.

TO PLAY IN PIANO AUDITIONS

Four local piano pupils from the class of Vivian Bell, 922 South Tennessee Street, McKinney, have registered as candidates for membership in the National Fraternity of Student Musicians, sponsored by the National Guild of Piano Teachers of which their teacher is a member. This group of young piano hobbyists will play in the National Piano Playing Auditions, May 3 section and strive for local and District honors which the Mother organization will confer according to the number of standard classic, romantic and modern pieces chosen from the Masters of piano-forte literature each student can creditably perform in the presence of an imported examiner of note from another state.

From coast to coast over 40,000 enthusiastic piano pupils of the nation will participate in this annual national piano-playing event being held in 403 music centers of the country and every entrant worth his salt will be certificated, given a gold or bronze embossed pin, a year's membership in the National Fraternity of Student Musicians and Piano Hobbyists of the World.

Begun at Hardin-Simmons University, Abilene, Texas, in 1929, national headquarters are still maintained in Texas

In 1929 the International Movement that is now The Piano Guild, embracing the National Guild of Piano Teachers, the National Fraternity of Student Musicians, and the American College of Musicians, had its beginning. Its main objective has always been to keep the piano in the public eye as the king of instruments by enhancing the prestige of those who devote themselves to it: Pianists, Piano Teachers, and Piano Students. It seeks to impress all students and their parents with the fact that piano playing is an ideal, all-weather lifetime hobby or a pecunious, respected profession.

Irl Allison, A.M., Mus. D., LL.D, founder of the National Guild, is president.

Miss Bell's pupils appearing in the picture above, are: Bottom row, left to right—Mary Kathleen Miller and Sharron Corrine Dickerson; second row, left to right—Judy Carrol Miller and Stella Donna Helm.

Miss Bell, who has taught piano and voice in McKinney for several years, holds a B.S. depree and appared in the 1957 Edition of Who's Who.

Citizens Warned To Avoid Chain Scheme

Pat Simpson, Manager of the McKinney Chamber of Commerce warned local citizens today to avoid an endless chain scheme that is prevalent throughout the country, which uses United States Savings Bonds as bait to lure participants. According to the manager, this scheme not only makes flagrant misuse of Savings Bonds, but is illegal, and those who participate in it risk criminal prosecution. The text of Mr. Simpson's statement follows:

"For over three years now a chain letter scheme promising a sure-fire fortune in Savings Bonds has been tempting the get-rich-quick. For an investment of only $37.50 in two $25.00 Savings Bonds, participants are assured of receiving a deluge of $25.00 Savings Bonds in a few days, totalling some $38,400, which, upon maturity in ten years, will be worth $51,200.

"In an apparent effort to circumbent the Postal Lottery Laws, participants are told that the chain letters must be sold person-to-person. However, the Post Office Department has stated that the scheme violates the postal lottery and fraud laws. The office of the General Counsel of the Post Office Department recently alerted all Postmasters to the current use of this scheme and stated:

'Those who participate in such activities may be subject to criminal prosecution. It makes no difference whether the lists of participants are circulated through the mails or pass from hand to hand; as long as the money, bonds or receipts are mailed, the scheme is illegal.'

"Apart from the illegality of the scheme, the Treasury Department condemned this plan at its inception as contrary to the Treasury's intended purpose in issuing Saving Bonds. James F. Stiles, Jr., National Director of the U.S. Savings Bonds Division of the Treasury Department, recently advised the National Better Business Bureau, with which the Chamber is affiliated, as follows:

'Some organizers of the chain letter scheme imply that the Government and banks approve of the idea in order to increase Bond sales. This is not true. The Treasury Department through the Federal Reserve Banks, has instructed banks and other issuing agencies to reject applications for the purchase of Savings Bonds where the applicant states, or where the issuing agent has reasqn to believe that the Bonds will be used in the chain letter scheme.' "

Local residents were urged by the Chamber of Commerce to cooperate in combatting this scheme by rejecting any appeals to participate in it, and by referring to the Chamber any samples of this endless chain letter that may come into their possession. "Buy Savings Bonds as a Good Investment," Simpson concluded, "but not to further an illegal scheme."

Mrs. Leen Gives Book Review To CWF Members

MRS. T. R. LEEN

"Try Giving Yourself Away," that scintillating book by David Dunn was reviewed Monday afternoon by Mrs. T. R. Leen before a large group of the CWF and their guests at the First Christian Church. In her charming manner she explained how the book sets forth a happier way of living which all of us seek and so few find, since we are looking for it in many diverse places, little knowing that the secret lies within ourselves and its magic can be enjoyed every day without price. Most of us, she pointed out, are brought up with the idea of "getting" and only discover true happiness when we learn to "give ourselves away." All of us can give appreciation, interest, loyalty, understanding, encouragement, and tolerance—each is a portion of ourselves. Ralph Waldo Emerson wrote long ago that "The only gift is a portion of thyself," or as the old French proverb put it, "He gives nothing who does not give himself." Even if what you have to give seems very small to you, Mrs. Leen reminded her interested audience, it may be greater than you dare to think in the life of someone else. The Christian religion as well as history prove that the only things one really possess are the ones he gives away and the secret of true happiness, the author points out is to obey your warm-hearted impulses, not at some future time but now. Timeliness a friendly spirt, and enthusiasm all multiply the value of your giving to another.

"Almost anything in the world can be bought for money," Mrs. Leen remarked, "except the warm impulses of the human heart. They have to be given. And they are priceless in their power to purchase happiness for two people, the giver and the receiver." It is the unbuyable gifts of thoughtfulness, consideration, courtesy and good nature that give richness and meaning to daily life. Another priceless gift we may give our fellow men is tolerance, a gift that costs us nothing but is often the most wonderful gift we can give. As the Sioux Indian prayed, "Great Spirit, help me never to judge another until I have walked two weeks in his moccasins."

Mrs. Leen said that life would be much more exciting if each of us left a trail of "little sparks of appreciation" along the way, by letting oneself express pleasure over all the pleasant things each day. All human beings are hungry for appreciation and showing those around you that you do appreciate them is a heart warming habit—for them and for you.

In closing Mrs. Leen said that the author stressed the fact that it is not enough to master the art of giving oneself away only, but one must perfect the art of graceful and generous reviewing. If you find pleasure in giving, so do others and we must realize how important it is to accept quickly and acknowledge graciously the thoughtfulness of others toward you. Sincere compliments, she said, are among the finest gifts in the world, yet how few of us have learned to receive a compliment gracefully! Too often, we clumsily bat it back by making an awkward disclaimer which spoils the pleasure for both persons. The correct technique, she pointed out, is to accept the compliment with a smile of pleasure then quickly turn the spotlight off yourself by a remark that passes it on. For example. "Yes, isn't it a pretty dress? Mother sent it to me."

Some wise person has written "Success is a journey, not a destination. Happiness is to be found along the way—not at the end of the road." We would do well, Mrs. Leen said, to adopt the creed of Stephen Grellet, written a century ago, "I expect to pass through this world but once. Any good therefore that I can do, or any kindness that I can show any fellow creature, let me do it now. Let me not defer or neglect it, for I shall not pass this way again." When we set out to give ourselves fully and freely, our hearts make direct connection with that great central source of light and power, God, the giver of all good things.

Wouldn't you like to live in a world where everyone were giving himself away?, was the closing thought of this stimulating program.

Mrs. B. B. Spurgin brought the devotional thoughts, using an effective worship center featuring a Japanese decor.

An interesting lesson from meditation taught by Mrs. Strange.

The members enjoyed games. Mrs. Miller donated a quilt top and lining to the class which will be quilted at the cottage April 15. Mrs. Wylie Miller also donated $5 to the class, and Mrs. John K. Wilson $1.

Miss Harris Is Presented In Recital

An outstanding event of the season, or any season, was the recital given at the First Presbyterian Church Saturday evening by Kathleen Harris, senior in Boyd High School. Her accompanist was Terry Randolph.

Miss Harris, daughter of Mr. and Mrs. Ramsey Harris and granddaughter of Mrs. C. C. Harris of McKinney, is a very promising Mezzo-Soprano pupil of Allie Coleman Pierce.

Her voice has a vibrant quality, flute-like high notes and mellow notes in the lower register; her stage personality very charming and modest. She reflected a nicety, and precision of careful training and study.

The selection of songs was a very wise one as it showed moods and range of voice and emotions. She appeared before a floral arrangement of stock, carnations and lilac making a charming picture of youth and beauty.

The first group of songs which she sang, was sacred music by Bach and Handel in deference to her surroundings.

"My Heart Ever Faithful," "He Shall Feed His Flock" and "O Thou That Tellest Good Tidings to Zion."

The second group included "Maman, Dites - Moi" by Wekerlin, a delicate whimsey of "Mama tell me what is Love"; "Romance," an artistic composition by Debussy, and "Adieu, Forets from 'Jeanne D'Ark' " by Tschaikovsky, a haunting refrain of farewell.

During the intermission Mr. Randolph, played selections from Bach, and Chopin. He is a senior in Southern Methodist University, director of music for the First Methodist Church here and is a pianist of much talent. His numbers included: English Suite III in G Minor and Troiseme Ballade, Op. 47.

The fourth group by Miss Harris was German songs: "Komm Susser Tod" by Bach, come sweet death, welcoming cessation of earthly woes; "Der Leiermann" by Schubert and "Nur wer die Schnsucht Kennt" by Tschaikovsky revealing "none but the lonely heart can know my feelings."

In the fifth group was "Sleep Baby Sleep," a lovely lullably composed by an aunt and uncle of Kathleen; the lyrics by Mrs. John B. Menn and music by Donald Milburn. "My Lover Comes on the Skee" by H. Clough-Leighter, is a lilting English song.

Mrs. Pierce, under whom Kathleen has had her training, is a definite contribution to the cultural life of her native city, and is often called upon for solos before local audiences. At the close of her program Saturday evening one in the audience was heard to say "A Star is Born."

Anna High Classes Are Entertained

Mr. and Mrs. Marvin Noles entertained with a party for members of the Senior and Junior Classes of Anna High School and their guests at the VFW Hall here. Mrs. Noles is one of the Senior Class Mothers.

Class colors of red and white were used to decorate the spacious Hall. The refreshment table was covered in white net over red satin and centered with a bouquet of red carnations and white stock. Nuts, candies and cold drinks were served during the evening to 65 guests. Favors were designed from candy suckers.

Assisting the hosts in entertaining were Mr. and Mrs. Wayne Sherley, Mr. and Mrs. Anthony Geer, Miss Frances Stewart, Junior class sponsor and Mrs. Jim Wysong, senior class sponsor.

Games and dancing were the evening's diversion.

Mrs. Andrews Honoree At Shower

A lovely party was given by Mrs. J. B. Bacon Jr. and her sister, Miss Avo West on Thursday night, honoring Mrs. John Andrews the former Miss Beverly King.

The miscellaneous shower was given in the attractive home of Mrs. Bacon, who choose yellow iris to further enhance the decor of the living room and dining room.

The guest list included thirty of Mrs. Andrews friends and her mother, Mrs. Bill Day.

The hostesses assisted by their mother, Mrs. Claude G. West and the little daughter of Mrs. Bacon, Beth served delighted chocolate sundaes and cookies.

Mr. and Mrs. Andrews are students at N. T. S. T. C., Denton.

Miss Jeannette Townsend spent the Easter holidays in Texarkana with friends. She formerly taught school there.

Mr. and Mrs. J. S. Dodson, of McKinney, had as their Easter holiday guest, their son, Ellis Dodson, student at Texas Tech, in Lubbock.

Children Asked Not To Swim In Tank Near Park

W. H. Coffman, McKinney florist, is calling attention of parents to children swimming in a water tank, in South McKinney, located just South of Finch Park, and West of Coffman's Florist shop. He points out the danger of swimming there.

The tank is 30 feet deep in places, and is in a tract surrounded by a high fence. At times cattle are kept in the enclosure.

Mr. Coffman reports children climb the fence to swim in the tank, which is very dangerous. He has placed "Keep Out" signs on the premises and has the cooperation of local officers in issuing a warning to those persons guilty of trespassing upon the property.

T. L. Ray Announces Candidacy For County Commissioner

TO THE VOTERS OF COLLIN COUNTY, TEXAS:

I wish to take this means of announcing my candidacy for the position of Commissioner, Precinct No. 4, Collin County, Texas, subject to action of the Democratic Primaries in July, 1958.

I moved to Collin County from Hamilton in 1931 and my wife and family have had their residence in Collin County since that date. I am now living in the Allen community. I have held one official position, that of Deputy Sheriff of Collin County, Texas, and have spent the most of my adult life as a farmer, stockman and stock-trader. I feel that I am particularly aware of the problems of the farmer and of the problems of farm roads and feel that I can render a valuable service to the county if elected County Commissioner.

I promise you the voters, that if I am elected, I will do my dead level best to be the right kind of a Commissioner and I shall at all times act independently of any influence or pressure of any person or group of persons, at all times directing such energy and ability as I may have to the best interest of the public and to the position which I may hold.

I wish to thank at this time, those persons who have already come forward to solicit my running for this office and who have promised me their support and I wish also at this time, to urge you as the voters of Collin County to make a thorough investigation of my character and reputation as to integrity and I will be satisfied with the results of your inquiries.

With thanks for your consideration during the coming months, I am,

Respectfully yours,
T. L. RAY.
